DISCIPLINARY COMMITTEE

INTRODUCTION

Teaching ethics to students is a crucial part of nursing education since it helps them become professionals. The institute makes sure the students follow the norms and guidelines established by the regulatory organizations as part of this preparation. The major goal of creating the disciplinary committee was to uphold discipline and implement corrective action when rules, regulations, and ethics are broken.

AIM

To ensure and maintain both the safety of all participants and student discipline.

OBJECTIVES

- To uphold order wherever students are placed, including in classrooms, college grounds, and hospitals
- To accomplish the objective of encouraging the adoption of positive attitudes and behaviors to create a welcoming, inspiring, and safe campus environment.
- To take acceptable conduct seriously and implement gradual discipline, which may include suspension and expulsion if needed.

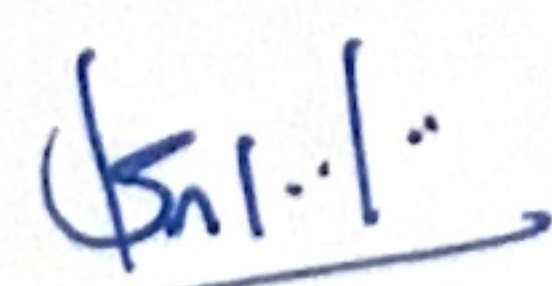

ACTIVITIES

- Establish fair and transparent procedures for reporting, investigating, and adjudicating disciplinary cases.
- Organize orientation sessions for new students to familiarize them with the college's code of conduct and disciplinary procedures.

- Conduct workshops or seminars on professional ethics, academic integrity, and the importance of compliance with college regulations.
- Conduct periodic reviews of disciplinary policies and procedures to identify areas for improvement and ensure alignment with best practices and legal requirements.
- Offer support and resources to students who have been subject to disciplinary action, including counseling services, academic assistance, or referrals to appropriate support programs.
- Emphasize the importance of rehabilitation and personal growth in the disciplinary process, with a focus on fostering responsible behavior and professional development.
